\$80 / year

Only available to members of FCCEF, The Retire Rich Roundtable is a newly designed program powered by Better Futures to inspire family based educators looking to transition into wealth from a life dedicated to early childhood education. The primary focus is on retirement investing as a long-term wealth-building strategy. FCCEF members will attend via Zoom as part of a Cohort model and will gain the knowledge and support to plan for retirement, grow passive income, and step into your next chapter—on your own terms.
